DETAILED ACTION

Allowable Subject Matter

1. Claims 1-16 and 27-29 allowed.
2. Claims 18-26 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

4. Claim 17 rejected under 35 U.S.C. 102(e) as being anticipated by Kim et al. (6,246,074). Kim et al. disclose a thin film transistor substrate with testing circuitry where in Fig 2, Fig. 5, Fig. 6 and in column 7, gate test pad 38A, data test pad 38B, data pad 32A, gate pad 30A disclosed where the gate test pad 38A and the data test pad 38B has the same

Art Unit: 2826

pattern as the data pad 32A and the gate pad 30A. Furthermore, in Column 1, Kim et al. disclose the required substrate, pixel, and the liquid crystal structures.

The applied reference has a common assignee with the instant application. Based upon the earlier effective U.S. filing date of the reference, it constitutes prior art under 35 U.S.C. 102(e). This rejection under 35 U.S.C. 102(e) might be overcome either by a showing under 37 CFR 1.132 that any invention disclosed but not claimed in the reference was derived from the inventor of this application and is thus not the invention "by another," or by an appropriate showing under 37 CFR 1.131.
